Read the Information below it can increase your Business Dramatically

New Clients and new Business is what we do, and do well!

We are... Traffic Consulting Services

Do we know what we are doing?

Great Question! Here's my personal story...

After working full time as a manager in the Licensed Trade running bars, from 1972 through 2004, which consisted of the longest hours with lousy pay. In fact the pay sucks, because the pay sucks 10 years ago I started a new business that helps people just like you with their internet marketing and we just opened up a new office specializing in companies just like yours.

It all really started because I was researching for a plumbing company because my pipes broke and during that research I found out that there are a lot of plumbing companies that are paying \$10, \$15, \$20 and \$100+ a click for their ads online.

And that's insane, because we can get them all those clicks for FREE! Listen Joe's plumbing is right now paying \$20 per click, let's assume they get a hundred visits a month. That's \$2000 a month just for someone to click on their website. That's CRAZY especially when I can do it for free. I can get them all that traffic for free, they don't pay anything when they work with me.

Take a look at the position of a couple of Dong's pages these positions were brought about by one of our SEO experts...

WE CAN DO THE SAME FOR YOUR COMPANY, NO MATTER WHAT BUSINESS YOU ARE IN!

Legal, Accountancy, Medical, Dentistry, Car Repair, Plumber or any other profession...

The keyword - picture to art is #2 Page 1 and has 1.08 Billion pages competing for page one

As you can see, the keyword phrase - photo to art is #2 on page 1 of Google with huge competition of 447,000,000 websites competing for the first page.

And Dennis is killing it from this advert at #2 page 1 for the keyword - roofing repair burnt water AZ out of 56.3 million pages competing. Again thanks to the work of one of our SEO experts.

There are other sites we could show you, but we won't bore you with page after page of images.

Our Primary job will be ranking your Business on Page 1 of Google and Bing, where all the free traffic is. (They Bury Dead bodies on page 2 so they can't be found). **Secondly we will be adding to your revenue!**

Did you ever notice all those Paid Ads on those pages? The top 3 on the first page are paying an Average of \$3,500 and up every Month to be there, bidding more and more all the time to stay there... WHY?

There are plenty of companies out there that can rank your website and claim they can do this and claim that they can do that. The fact of the matter is this, we are an SEO company, yes, period, end of story, but we are the only SEO company that I know of that doesn't just focus on getting you to number one on Google, because let's face it, let's be perfectly honest, if you had a thousand people coming to your site and you weren't making money from those thousand people, what the hell would be the point?

I could get you a thousand people coming to your site by tomorrow morning, but if none of them buy anything from you, who cares?

We are the only company that I know of that focuses on SEO, yes, but also REVENUE all the time. We are here to increase your bottom line, period, end of story! And if we don't do that, we failed, fire us, that's it!

We are only going to be working with one company in your area. So if you want that to be you, you should give us a call right now, because if it's not you, this is going to be going out to all the (profession) in your state and only one of them will get to work with us. And that one person could be you because

you're reading this whitepaper, so if you don't call right now on 0034627953746, you could miss out, because if you don't call we are going to send this out to every other (profession) in your area.

And the first person that calls us is going to be the one and right now that could be you because as I said you are reading this pdf, so call us, BUT if you don't then it WILL be somebody else! And the one that does is going to win my services and is going to get to the top of Google, increase their revenue and increase their customer base because I always focus on pure domination.

Competition is a joke, I do not want my clients competing against anybody, I want them destroying everybody in their way. I don't play games to win by one goal, I play games to win and embarrass the other team. That's the way that I work.

So I suggest you give me a call right now and we can talk and we'll see if we can work together.

With Us, It's First Page or Nothing... BUT!

You will get an Increase of clients, revenues and profits from ranking and other traffic sources we provide. Best of all we are so confident in what we do, there are no long-term binding contracts. We work month-to-month, delivering quality results. If we don't get your website on page one within 8 weeks we will refund you every penny, this is our guarantee!

OUR NUMBER 1 Product is getting our "Client's Websites" ranking on the First Page of Google for High Valued Keywords.

Secondly we offer Our Live Call Lead Funnel – nothing is even close to this from our competitors.

We can under direction "Create Live Calls" direct to your Office, looking exactly for the Service You Provide. This is not a cold contact, but a red hot Targeted Call, not shared with anyone else! Let me be quite specific in what we do, unlike our competitors...

WE DOMINATE the Market for our Clients. Yet, we have a reasonable price point. We believe that the service speaks for itself. **For less than the cost of a**

single click in an Adwords Campaign, we create a real call, live, exclusive, targeted, and looking for Your Business.

Ready to dominate your competitors and your market?

I need to let IMPRESS AGAIN... **We Accept Only One Client per City in any Given Market, Period!**

Sorry to be blunt but If it's not going to be you, it **WILL** be your competition.

Due to the work required, and the special attention we give each of our clients, we can only accept a few clients per month. If you're serious about revenues and new business, call today or reply to the E-Mail densconsulting@gmail.com today. Don't wait and let your competitor be the one we are working with.

What makes our lead funnels so popular?

Simple! They **Deliver Actual live calls directly to your business**. These potential customers are looking for the exact service you provide! They are **not** shared leads but exclusive only to you! At a fraction of costs other services charge, Heck, It's not even close, (**hint, shhhh don't share, we normally charge \$40 and up per live call**) and only send **actual legit calls**. With a monthly log included. You see the true results!

The calls you get from us are at a minimal cost compared to say **Adwords costs of over \$300 on average to create just one call** using pay-per-click methods.

And just because the person clicks, does not necessarily mean he is going to call. Does that even make sense business-wise?

Your choice, pay for Actual Calls, or pay much higher costs for calls you just might get?

Yes it's true, YOU CAN BE ON PAGE 1 using our team instead of paying AdSense \$57 - \$80 for each click you receive. Does that make any sense?

A recent client had been budgeting \$3800 per month for his AdSense ads. Constantly having to up his bids daily to stay in the page 1 group of ads, spending and wasting hours of time, not focusing on the important parts of his business.

Now he is on Page 1 for his 5 top keywords and 10 of the videos for the same terms that clients use to search for his business! He's now dominating his niche!

Want to do the same... You can, but realize we only accept one client per any city in a given niche or business. It's first-come, only-one-served! That means if it's not you, it **WILL** be your competition. So look over the material and if it's a fit for you, give us a call, but act quick to lock in the slot.

One final thought, all you need to do now is...

Call Dennis Rocke or send to our Email... densconsulting@gmail.com

0034 627 953 746 or 620 457 024 if that one is busy

AND Lock in Your Company for a Position while it is Available.
